About the Indexes

Thumbnail Index to Figures

The thumbnail index is designed to help the reader search visually for a desired figure or table. Each of these is also listed alphabetically by title in the *Topical Index* under the heading of “Figures.”

Scripture Index

Entries in this index reference pages where a given scriptural passage is mentioned, referenced, quoted, or discussed.

Significant references to prominent pseudepigraphal works (e.g., *1 Enoch*, *Book of the Giants*) may be found in the *Topical Index*.

Index of Latter-day Prophets

This index lists references to and quotations from statements attributed to Presidents of the Church of Jesus Christ of Latter-day Saints, either made before or during their respective presidencies. First Presidency statements are attributed to the individual who was serving as President at the time. The most specific date that could be found for each statement is listed; some dates, of course, are approximate or unknown. Dates of first publication are used in lieu of more specific dates when necessary.

Topical Index

Topics, figures, and names of selected individuals and sources discussed in the text are listed alphabetically. Special attention has been given to entries for cross-cutting or obscure topics that may be difficult to find by browsing the *Table of Contents*. No attempt has been made to exhaustively index individuals or topics that are ubiquitous in the text (e.g., “Noah,” “God,” “heaven,” “revelation”).
